

## Rewind / Let's Celebrate.... Christmas and Easter... and 'Move-up'

This is a Scripture Union written programme which is a half-day session held in a local church where primary school children from the local schools come along and hear the story ( Christmas or Easter) presented in an interesting way. They have the opportunity to complete a booklet to take back to school with them and a craft activity to support their experience and learning. Refreshments are provided by the host church for the children and the schools collect a voluntary contribution from the children for the sessions. This is headed up with resources from Scripture Union and local volunteers. It usually works well to include one school year group for the Christmas story and a different school year group for the Easter story. There is also 'Move-up' for year 6 children which can be run in the same way, in July, to support the children as they Move-up to secondary school.

There is a group organising this ecumenically in Moortown this December. Over 400 local children are attending over 4 sessions and we are hoping that people from other churches or groups of churches will join the team then so that they can see what is involved and then be able to consider how they might have this happening in their own local area with their local primary schools. All the materials and letters etc. are pre-written for this. **Training is available on Sunday 13<sup>th</sup> November at 4pm.**

### Also

Is an ecumenical termly celebration event for all church children in the Leeds area, who are aged 7-11 (school years 3-6).

The first ever Refuel event in June was a great success with more than 70 children and a team of adult and young leaders from across the city.

The next Refuel is Saturday 19th November at Mosaic Church and we want to encourage every church to bring children along to join in the activities, games, crafts and celebration.
