This day is for you... if you are a Christian in one of our Northern cities or towns and want to see transformation in your community. We have subsidized the event in order to allow more people to attend and really hope you will be able to join us.

The key issues that Dave will address...

- How do we get the whole church on board with community action?
- How do we deal with welcoming difficult people in our community?
- How can we prepare the church for action and change?
- How can we remain energised in our work transforming areas affected by poverty?
- Are we ready for personal change?
- What gets people together and involved in their communities?
